

With **you**, our mission strengthens the pulse of our

COMMUNITY

DEEPLY ROOTED

Give local, stay local

Blood donations stay local, benefitting patients in your community.

LIFESAVING

Improved outcomes

Patients with rare diseases have access to specialty products and care.

INNOVATION

Leading-edge research

Advancing care for patients nationwide through Versiti Blood Research Institute

Blood Center of Wisconsin

Learn more about how Versiti is improving lives and advancing healthcare at [versiti.org](https://www.versiti.org)
A non-profit 501(c)(3) organization.

Blood Center of Wisconsin

Versiti Blood Center of Wisconsin is a non-profit organization headquartered in Milwaukee, WI, specializing in blood services; esoteric diagnostic testing; organ, tissue and eye donation; medical services; and leading-edge research. Founded in 1947, we advance patient care by delivering lifesaving products and services. For more information, visit [versiti.org/Wisconsin](https://www.versiti.org/Wisconsin)

Donors. Diagnostics. Discovery. Versiti makes an impact.

640

units needed per day

132,000+

units collected annually

2,700+

blood drives hosted annually

10

donor centers

4th

largest independent
blood provider in U.S.

65+

hospitals served

We put people first.

Blood Services

Blood donations help patients locally. Those with special needs in your community will have improved access to specialty matched units and consultative services.

Physician Services

A host of transfusion-related medical services including therapeutic services, physician consultations, adult hematology, and comprehensive care for patients with bleeding disorders.

Donor Testing

Infectious disease testing (IDT) to determine donor suitability and blood product safety.

Diagnostic Labs

We are the science behind the medicine for national hospitals providing personalized solutions in transplantation and hematology.

Pharmacy

Product distribution for hospitals, facilities, and patients' homes.

Versiti Blood Research Institute

Versiti Blood Research Institute attracts leading-edge researchers from around the world who are dedicated to unlocking the healing potential of blood.
