Stronger together

Donors. Diagnostics. Discovery. Versiti makes an impact.

600,000+

donations collected annually

1,175,000+

products delivered

310,000

annual donors

650,000+

donations tested annually

13,000

community blood drives held annually

110,000

genotyped donors across Versiti (largest known pool in U.S.)

4th

largest independent blood provider in U.S.

2,200

staff, 27 practicing physicians, 33 research faculty

We put people first.

Blood Services

Blood donations help patients locally. Those with special needs in your community will have improved access to specialty matched units and consultative services.

Physician Services

A host of transfusion-related medical services including therapeutic services, physician consultations, adult hematology, and comprehensive care for patients with bleeding disorders.

Donor Testing

Infectious disease testing (IDT) to determine donor suitability and blood product safety.

Diagnostic Labs

We are the science behind the medicine for national hospitals providing personalized solutions in transplantation and hematology.

Pharmacy

Product distribution for hospitals, facilities, and patients' homes.

Versiti Blood Research Institute

Versiti Blood Research Institute attracts leading-edge researchers from around the world who are dedicated to unlocking the healing potential of blood.
